an **HNA** company

WHY BUY A USED SHIPPING CONTAINER FROM **SEACO**?

- Shipping containers are designed to be fully intermodal by **rail, road or by sea.**
- Seaco containers are built to high quality specifications and therefore are strong and durable.
- Our fleet of new and used containers are **available worldwide.**
- Used containers are more cost-effective to convert into building units than conventional construction.

YOU COULD SAVE

\$1,000

APPROX., ON A USED V NEW

**SHIPPING
CONTAINER**

Due to the universal size and build specifications, containers can easily be customised to fit any purpose or stacked on top of one another (weight restrictions apply).

**RIGHT CONTAINER,

CONTAINER CONDITIONS AVAILABLE

NEW CONTAINERS	IICL*
<p>When a pristine container fresh from the factory is required and has had one-trip use, delivered anywhere in the world.</p>	<p>Ready to transport cargo as well as being ideal for most purposes, such as storage and modifications.</p>
CARGOWORTHY	AS - IS
<p>Repaired to a safe structural condition to transport cargo.</p> <p>Great for re-building into accommodation, storage or other types of modifications.</p>	<p>'As-is' could require repairs to be re-used, which might include structural work.</p> <p>Not necessarily repaired to a safe structural condition to transport cargo but are great for re-building into housing, storage or other types of modifications.</p>

***IICL Compliant to the standards of
The Institute of International Container Lessors.**

A FEW EXAMPLES OF USE TO HELP INSPIRE THE IMAGINATION:

Library Container delivered at Isiboniso School, Cape Town –
project supported by Seaco for [Habitat for Humanity](#)
